<b>Areas covered</b>	National
<b>Courses</b>	ITT fee-funded and salaried and Postgraduate Teacher Apprenticeship (PGTA) Both in the majority of Secondary subjects and Primary
<b>What can we offer our partnership schools</b>	Tes Institute are a supportive and collaborative provider, who work in partnership with our schools to deliver our high-quality ITT programmes. Our programme is comprehensive, integrating the Core Content Framework, delivered through a blended approach of online and F2F training. We work closely with our mentors to support their professional learning too and ensure they feel well prepared to work with their trainee. Teacher workload is a high priority, and as such, all training and mentor support is focused on teaching and learning, without unnecessary administration tasks. Our school leaders say: <i>'Trainees are proud of the contribution they make to their placement and employing schools. Headteachers said that trainees are not just 'passive recipients' of training but are 'active professionals'.</i>
<b>Routes</b>	ITT Fee-funded and Salaried. Postgraduate Teacher Apprenticeship.
