

# Mentor Training overview

## Requirements

All ITT providers are required to offer and keep a record of mentor training under the new requirements from 2024/25.

NIOT provide training for mentors as well as 'managing mentors' (professional tutors), all of whom can claim funding for up to 20 hours of training.

## Delivery

The training is a mixture of live online sessions, asynchronous study using NASBTT modules and Iris Connect learning platform, as well as coaching from our tutor team.

Some training will be delivered nationally through NIOT's tutors. Some will be via our local tutor team.

## Logging training hours and exemptions

Training will be logged through the Iris Connect platform and by tutors. Completed training hours will be passed back to schools to claim funding.

An audit will take place at the start of the academic year, which will mean some experienced mentors complete fewer hours of mandatory training.
