

Evaluating the Impact of your Curriculum – DfE approved and TSH-accredited CPD

VNET Education CIC bring you this DfE approved, TSH-accredited, year-long programme designed to enable you to assess the effectiveness of the way in which the curriculum is designed and taught in your school and to evaluate the pace of pupil progress and outcomes.

The project consists of 6 online sessions over the academic year and costs £750+VAT per school. [Click here for dates, times and more information](#)

The impact of the curriculum lies in whether students have learnt the things you've taught them. How do you know whether pupils know what you think they know? When inspectors evaluate the impact of the education provided by the school, their focus will primarily be on what pupils have learned. Having a well-structured, well-taught curriculum will lead to good results because those results will reflect what pupils have learned. This project is intended for primary and secondary headteachers, senior and subject leaders who want to ensure that all pupils benefit from a good quality of education and optimise their learning and outcomes.

PROJECT OUTCOMES

- ✓ Delegates will understand how the identification of knowledge components leads into assessment
- ✓ Delegates will understand how to evaluate pupil progress through pupils' work and discussions
- ✓ Delegates will know and understand how to use formative assessment strategies to check that pupils' knowledge is being retained
- ✓ Delegates will know how to evaluate progress through discussion with subject leaders and teachers and how to check that pupils' knowledge has been retained.

DELEGATES SAY...

- 👉 100% of delegates would recommend this project to other school leaders.
- 👉 100% of delegates feel more confident using pupil voice to evaluate evidence of progress
- 👉 100% of delegates feel more confident in conducting a book scrutiny to evaluated evidence of progress
- 👉 100% of delegates feel more confident in discussing sequencing choices with subject leaders

“I can honestly say it's some of the best CPD I've had and I think the two leaders were excellent and really good at their jobs. I enjoyed the CPD, and I can't always say that and I would highly recommend it to other schools. I also thought it was the first time that CPD delivered effectively to both a Primary and Secondary audience in the same room.” [Deputy Headteacher, Norfolk High School](#)

"The course prepared us brilliantly for our recent Ofsted!" [Norfolk Headteacher](#)

"We really valued the step-by-step approach to creating a progression of knowledge, skills and vocabulary." [Norfolk Headteacher](#)

"The information/questioning shared has enabled us, as school, to rethink the sequence and organisation of our curriculum for the better. The examples will support the monitoring and overall subject leadership." [Norfolk Headteacher](#)

VNET Education CIC are uniquely placed to support your school improvement journey.
